

Scadbury Park Acorn Trail - Post 19

There are many big ***sweet chestnut*** trees around the picnic area and on the far side you can see the grey white leaves of ***grey poplar***.

When the sun is out, the Living Sundial can tell you the time. This was created with the help of children from nearby Midfield School.

Try out the sundial - as long as it's sunny!

Molehills show where *moles* have been making tunnels in which they trap earthworms to eat.
